

Wood Movement

Upon any amount of payment made the purchaser is entering into and agreeing to the terms outlined below:

Please be advised that Wood is a natural product that is prone to movement no matter the amount of time it is left to dry or if it has been sealed or not.(i.e. wood moves)

Due to the nature of wood working we reserve the right to as much as a quarter inch variance at each measurement in a product due to Woods natural qualities as described above.

Timms Sawmill does our best to provide a quality product free from imperfections and defects to the best of our abilities but our work is provided as is without any guarantees or warranty. In association with the product, Timms Lumber and Sawing makes no warranties of any kind, either express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose, of title, or of non-infringement of third party rights.

If an issue ever arises with your product please contact us and we will do everything that we see as reasonable in our power to remedy any issues.

Creative Control

Timms lumber and sawing reserves the rights to “Creative Control of a project”

Being in the business for over 40 years means that we have a method and certain way that we approach projects and will implement those methods unless otherwise outlined by the client.

We will always do our best to steer a client in a direction that we think will be best for each project based on our experience.

Communication

Timms lumber and sawing does our best to communicate as fast and as clear as possible with our clients. Once a piece of wood has been “opened” the time is ticking and the longer that piece is open the more movement, checking and cracking will occur. Due to this we will move forward on a piece within our best judgment if we do not hear from the client within 2 business days.
